WORK EXPERIENCE

Frontend – Mobile App Developer

Graviti Software

Aug 2024 – Now

- Design and development phases of ongoing projects within the company
- Development process involving React, React Native, JavaScript, and TypeScript, as well as the design phase using Figma.
- Performing tasks such as utilizing GitHub throughout the project's development process, and setting up development servers on Ubuntu 24 and Debian 9 environments using Docker.

Educational Background and Project Development Journey

Jan 2023 – Aug 2024

- During my foundational education period, I focused on basic programming concepts and backend development using ASP.NET.
- Specialized in Frontend and Mobile Application Development using React and React Native.
- Throughout the learning period, actively engaged in project development and researching various technologies.

SUMMARY

While developing software, I also aim to gain experience in end-to-end project development by learning CI/CD processes. I continuously strive to improve myself by exploring and adopting new technologies.

RELEVANT SKILLS

- JS, TS, React, React Native
- Express.JS, ASP.NET
- Git, Github, Figma, Meta Pixel
